

2008-2009 CLERKSHIP MANAGEMENT SYSTEM

For the 2008-2009 academic year, P&S is piloting a new web based clerkship management system called *New Innovations*. Through New Innovations you will be able to do the following:

- **Review your MCY assignments for the year on line.**
- **Track patient encounters for each clerkship on line.**
- **Submit evaluations of faculty and of the clerkship on line.**
- **Read your final clerkship evaluation on line.**

New Innovations still maintains the confidentiality and anonymity that is very important when giving feedback. The end goal will be a more timely way for faculty and clerkships to receive evaluations and for you to be able to read your evaluations.

Clerkship Coordinators manage the New Innovations system for each clerkship. Their contact information is below.

Please retain this sheet for use throughout the clinical curriculum.

Even though you may read your evaluation throughout the course of the year, your MCY grade will NOT appear on your transcript until the summer following completion of your MCY. Course directors enter all grades at one time only, at the end of the academic year, in June 2009.
