Request for Waiver of Parental Information
For P&S, DDS and OT Programs

To be considered for need-based institutional financial aid, a student must submit financial information from both parents.

By completing this form you are requesting a waiver of information from one or both parents because estrangement makes it impossible for you to secure the information.

Waivers are not granted in the case of:
1. Reluctance to request the information from parent(s)
2. Unwillingness of the parent(s) to provide the required information

To request a waiver, you must
1. Submit a personal letter explaining the extenuating circumstances
2. If you are requesting a waiver from one parent, your other parent must also submit a personal letter explaining the circumstances
3. Submit a letter from a professional third party who personally has knowledge of your situation and who can verify your circumstances (guidance counselor, physician, social worker, attorney, clergy member)
4. Sign, date and return this form along with the required documentation

I certify that all the information provided on this form is true and complete to the best of my knowledge. It is also my responsibility to report to the Student Financial Planning Office any changes in this circumstance.
